'LEGGIMI ONLINE' THE DIGITAL MAGAZINE

Bricomagazine was one of the first-ever magazines - already in 2011 - available in digital format, at first as a downloadable app in the Apple and Google stores, then as **a proprietary web app** accessible from browser, the solution that we still adopt and which allows wider access and better adaptation to the increasingly heterogeneous formats of display screens.

Starting from January 2020, we have 'unbundled' from the bricomagazine.com site **the collection of access data to the browsable version** of the Bricomagazine magazine in order to specifically monitor the numbers and behavior of users. **The results were surprising**, considering the target audience limited to a niche in the B2B market, which focuses on the quality of users rather than on the number.

ADDITIONAL DIGITAL CONTENT AND MULTIMEDIA ADVERTORIALS

- **video playing**
- **sending pre-filled email**
- **download catalogs/price list (pdf, Powerpoint, Excel)**

It is also possible to buy **multimedia advertorials**, or two-page articles that do not appear in the printed version of the magazine, ideal for promoting one's digital communication activities. To see some examples click **here** and **here**.
